Job Title: Field Service Engineer
Work Location: Las Vegas Area
Position Type: Employment, 1 Opening
Salary: $20/hr, 40 hour work week
College Level: Juniors, seniors, and Graduate students

OVERVIEW
Fresenius Kabi is a global health care company that specializes in lifesaving medicines and medical technologies for infusion, transfusion and clinical nutrition. Our expansive portfolio of products and global network of science and manufacturing centers provide essential support for the care of critical and chronically ill patients. We are part of Fresenius SE, a health care group with more than 100 years of experience in pharmaceuticals, medical devices and life sciences. Our employees, more than 30,000 worldwide, develop and deliver injectable pharmaceuticals and infusion systems; blood collection, transfusion and cell technologies; and essential nutrients for parenteral nutrition. Whether you work for us, buy from us, partner with us, or invest in us, you will come to know that caring is at the core of everything we do. Our purpose is to put lifesaving medicines and technologies in the hands of people who care for patients, and to find answers to the challenges they face every day.

We currently have an opportunity for a Field Service Engineer to provide service and technical support on our Autotransfusion products for our customers.

Role and Responsibilities
- Install, maintain, repair, and upgrade equipment in a hospital environment, within time requirements established by service management.
- Provide guidance and training to customers regarding the operation and maintenance of our instruments.
- Provide preventative maintenance in accordance with published procedures; keep performance and maintenance records on the equipment.
- Analyze equipment failures to determine cause and recommend corrective action.
- Maintain strong customer relationships through: effective communication of service and operator issues; effective presentation of positive attitude for the company, products, employees, and customers.
- Effectively manage company assets to include company vehicle, computer, trunk stock parts inventory, test equipment and tools.
- Willingness to work up to and over 8 hours/day and work > 40 hours/week, weekends and after-hours.

Qualifications and Education Requirements
- Associates degree in Electronics preferred or equivalent experience
- 1-4 years in servicing electronic equipment or systems preferred
- Ability to lift up to 50 pounds with the ability to bend, push and so forth
- Computer skills including Microsoft Outlook, Word, Excel, PowerPoint
- Customer focus with excellent customer service skills
- Good verbal and written communication skills
- Independent thinking, detail oriented and strong problem solving skills
- 60% travel, including overnight; valid driver's license; company car provided
